PROFILE SUMMARY

I am a diligent web developer based in Bristol with a strong track record in management, demonstrated during my time as Deputy Store Manager at ALDI and previously, as Senior Shift Manager at McDonald's. My professional skill set includes strategic planning, team leadership, and effective decision making, while my technical competencies span JavaScript, HTML5, CSS3, GIT, React and TailwindCSS. I am committed to continuous learning and development, as evidenced by my current studies in full-stack engineering and recent completion of projects like the Harry Potter Memory Game using React. My background in finance and accounting adds a layer of analytical thinking to my approach, enabling me to drive sales targets, manage inventories, and deliver exceptional customer service. With a proactive attitude and a hands-on approach, I am eager to tackle new challenges and make a significant impact in the field of web development given the chance.
